L'UNIVERS DES TEINTES

Ce nuancier a été conçu pour faciliter la sélection des teintes, l'harmonie des tons et la précision des correspondances en salon.

Il réunit les colorations CHEVEUX LUXE dans une présentation claire et cohérente, afin de faciliter la comparaison des tonalités, des profondeurs et des effets de lumière.

Les sept familles principales sont complétées par la sélection Grey Shades, organisée en trois univers de gris pour une lecture professionnelle plus précise.

GUIDE DE LECTURE

Choisir la nuance avec justesse

Les visuels servent de référence chromatique pour comparer les familles de couleur de la marque. Pour une sélection professionnelle, tenir compte de la base naturelle, de la lumière ambiante et du rendu recherché.

Les écrans et les procédés d'impression peuvent produire de légères variations de rendu. Pour une correspondance définitive, privilégier l'échantillon physique de la nuance avant la prestation.

COULEURS UNIES

Lecture homogène de la teinte, de la profondeur et du reflet.

OMBRÉ

Transition progressive d'une racine plus profonde vers une nuance plus claire.

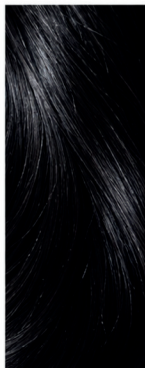

MÈCHES

Association de tons destinée à créer relief, lumière et dimension.
